### Thanksgiving

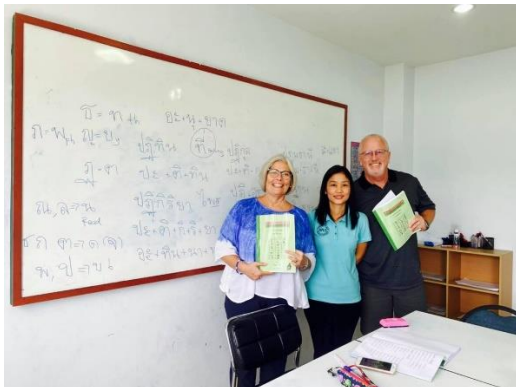

We have so many reasons to give thanks. Kids are safe and sound in North America. Whitney Louise was born October 10, 7.15lbs to Matt and Keara.

We have had excellent JSEM student exchange with the largest class ever. The first mobile dental clinic has taken place. Neighbours are visiting our home for meals. Our "Call", to Thailand has been confirmed several times. Sure, COVID has had its effect, but that effect is global yet nothing can halt the ministry of the Word, and we are all part of that—purpose, identity, proclamation, restoration, redemption and reconciliation.

**"Thai One On" has a whole new meaning...**

This is our lovely instructor Khru (teacher) Jaeng. So far, her favorite quote for us is, "Khun Tim, I teach this already..." My response has been, "well you didn't do a good job did you?!" We can order certain foods, say our phone number in Thai, and we can identify most vowels and consonants in road signs... Nancy and Tim both successfully passed Book One of Thai language studies.

This is our homework board directly across from our supper table...

### FFI Vocational Training Preparations

Nancy is very busy writing training materials for our vocational students and future mothers we will meet. At the time of this writing she crafting lectures and handouts regarding breast feeding and lessons regarding nutrition and hygiene.

The last we wrote Nancy was involved in a mobile dental clinic, which was a huge success. A follow-up visit is planned in five months. Our dentist is willing to join the team again to lead another clinic. This clinic was the first-time patients ever received a fluoride treatment for their teeth. The team was able to purchase several tooth brushes, tooth paste, to give to patients.

The Team is involved in teaching safe touch and internet safety in local schools. This may seem a simple task, but teachers appear to have great deal of leeway in disciplining their students. The class is pictured here...

The FFI Team has received some strategic training concerning providing a Foster Care Ministry.

**Team Foster Care Training**

All Nations Church Phuket is going well “post” COVID 19. The congregation is safely wearing masks, worship teams are carefully following COVID protocol. But can you see an issue with Pastor Tim? Check out where he wears his required face shield...

Our weekly church attendance is 60 adults and 16-20 children. We have 43% of our congregation serving in a volunteer capacity. Finances at the church have taken a tremendous hit since COVID caused many lay-offs among our people. Phuket’s economy is predominantly tourism and many resorts have shut down until government health officials declare it is safe to reopen and receive travelers. Please pray for our people on the entire island. There is so much unemployment.

Of course Tim has a small group of nine men who gather as often as possible over the joy of like hobbies—please be careful not to judge.

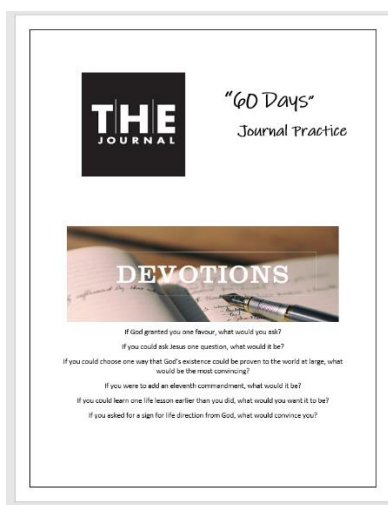

Tim and Nancy are leading a noon hour small group with five international young adults. This is an evangelistic effort. Please prayer Albert, Eugene, and Adam would cross the line towards salvation.

**Some of our International Team. These are such good people.**

**Thank you for contributing to the Journal**

### **Sneak Peek at The Journal Cover**

We have had eight ministry supporters provide journaling articles for our 60 Day Devotional Booklet. Thank you. But we are not done yet. We still have ten more articles to write. If you are interested in submitting an article please email me and I will send you an example of the work in progress. The workbook is designed specifically for our GAP year students. These devotionals are intended to help our students synthesize what they are learning about God through Scripture, understanding self, and determining their call to mission. We want students to be able to process all the Holy Spirit will have them encounter as they experience intercultural ministry work. This is another sizable undertaking.
